Product: "MOCAP" wall clock

Design: J.P.Meulendijks for Plankton

description: Most wall-clocks have the same basic shape: round. Also the same looking time-indication by numbers or stripes.

"MOCAP" steps away from the basic..

It's appearance leans more to a piece of conceptual art, then to a basic time-telling clock.

The big wall clock will catch your eye by changing shape when you walk around it. When you stand in front of the clock: the numbers are clear and visible. When you walk around it: numbers slowly dissolve, and seem to fall apart in little floating white balls.

This optical illusion results in a striking and intriguing piece of wall-art. Inspired by "MOTION CAPTURE" technique used in movies such as "Lord of the rings" + "Avatar"

material : wood (recycled)

dimensions: Height: 79 cm. / 31 inch width: 79 cm./ 31 inch depth: 10 cm./ 4 inch

color: Clock-face finished in matted black, causing the bright white balls to seemingly float in mid-air.

-Clock-hands finished in anthracite so they are subtle visible. against the matted black background

Product weight: 8 kg. / 17,5 lb

shipping dimensions: 81x81x12 cm. 31.9 inch x 31.9 inch x 4,7 inch

shipping weight: 9 kg. / 19.8 lbs

shipping volume: 0,078 m3

Europe: € 29,70 Euro

shipping Netherlands: free

ships from: the netherlands

Lead-time: 10-30 days

product: "LOCK" bamboo dining table (base only)

SKU: lock-dine-base

design: J.P.Meulendijks

description :

"LOCK" is designed out of the qualities, possibilities and characteristics of its highly sustainable material: BAMBOO.

The frame is build up from layers of flexible bamboo. The layers are pressed together. The shape is formed by the bamboo's natural bending curve. The layers of bamboo curve through each other and entwine, locking each other in place. End result is a mix of nature and mathematics, of possible and impossible.

A super strong muscular dynamic shape that looks different watched from different viewing points.

Bamboo is a strong flexible beautiful and renewable material. Bamboo grows without the help of fertilizers. The bamboo tree is mature enough to be cut after three years. The trees are processed into the most environmentally sustainable wood on Earth.

maintenance: the wood can be cleaned with a damp cloth, and if necessary, treated with wood oil.

The glass top can be cleaned with glass cleaning products.

material : Base: Bamboo thick veneer.

Top: not included:

It is more expensive to ship a glass top overseas then to buy it.

Have the top made by your local glass-dealer, or use your old top if you already own a round table 1000-1200 / 1600 mm. (39.3 -47.3 inch / 63 inch) in diameter.

For max. 3 persons / end-table: we advise a 1000-1200 mm. (39.3 - 47.3 inch) Diameter . 12 mm. (0.047 inch) thick clear tempered Cradle to cradle certificate glass.

For max 8 persons / diner-table :we advise a 1600 mm./ 63 inch. Diameter + 15 mm. thick clear tempered Cradle to cradle certificate glass.

dimensions: base: 100x100x100cm. height: 72,5 cm / 39x39x39 inch. Height: 28,5 inch.

color: caramel bamboo. Hard-oil finish.
Product weight: 14.5 kg / 32 lbs
shipping dimensions: 123x43x13 cm. / 48,8 x17,3 x 5,5 inch.
shipping weight: 17 kg. / 37 lb.

ships from: the netherlands
Lead-time: 10-40 days
some assembly is required.

Product: "SPARE" light object / table lamp
SKU: SPARE
design:J.P.Meulendijks

description :

One light-bulb burns, the other light-bulbs function as a lampshade, diffusing and spreading the light. The burning bulb will light up the other bulbs. When the bulb is burned out: simply screw the lamp-holder on to an other bulb.

Part of the design-collection of: "DESIGN MUSEUM GENT" in Belgium

Because of the new guidelines for light-bulbs, "SPARE" is re-designed for the future: build with 25 classic clear light-bulbs and 1 clear LED-bulb that looks just like a classic bulb. Now you can choose to let a classic bulb or a LED-bulb burn..After +/- 75 years all the bulbs are burned up. In a few years,when there are no regular bulbs left anywhere, you will still enjoy the light of your "SPARE" bulbs.

material :25 clear glass light-bulbs+1 glass LED bulb 4 watt. 150 lumen. 220V. + E27 lamp-holder +2 meter cable + euro-plug. (220 to 110 volt adapter free of charge on request)
dimensions: 26x26x26 cm. / 10,2x10,2x10,2 inch.

color: clear

Product weight: 2 kg. / 4,4 lb

shipping dimensions: 36x36x36 cm. / 14.17x 14.17 x 14.17

product: "LOCK" bamboo coffee table

SKU: lock-coffee

design:J.P.Meulendijks

description :

"LOCK" is designed out of the qualities, possibilities and characteristics of its highly sustainable material: BAMBOO. The frame is build up from layers of flexible bamboo. The layers are pressed together. The shape is formed by the bamboo's natural bending curve. The layers of bamboo curve through each other and entwine, locking each other in place. For the layered frame: two different color-tones are used: natural and caramel bamboo. This "layer cake"enhances the curves and shape of the table.

End result is a mix of nature and mathematics, of possible and impossible. A super strong muscular dynamic shape that looks different watched from different viewing points. A contemporary coffee table design and a mid-century homage.

Bamboo is a strong flexible beautiful and renewable material. Bamboo grows without the help of fertilizers. The bamboo tree is mature enough to be cut after three years. The trees are processed into the most environmentally sustainable wood on Earth

maintenance: the wood can be cleaned with a damp cloth, and if necessary, treated with wood oil.

About:

PLANKTON

A future-conscious avant-garde design-label .Our goal is to provide interior products with a maximal life-cycle through durable construction and good timeless design with a little poetry and soul.

The small and exclusive collection is produced in the Netherlands and available trough this website and a small network of dealers.

Design:

The design of PLANKTON-products aims to be good timeless design with a little poetry and soul, objects you don't want to throw away.

Life-cycle:

The goal is to use the product as long as possible. The designs are durable and made to last.

Materials:

Only carefully selected materials are used for creating the collection:

Bamboo

A strong flexible beautiful and renewable material. Bamboo grows without the help of fertilizers. The bamboo tree is mature enough to be cut after three years. The trees are processed into the most environmentally sustainable wood on Earth .Protected by a waterproof, washable compostable coating made of natural oils and other ingredients.

Shipping:

PLANKTON-products are shipped the most economical and with minimal environmental footprint. Where possible groupage-shipment is applied: Space in containers is used by multiple smaller shipments, sharing space and costs. All shipments are climate-neutral-compensated. Plankton products are designed to be able to be shipped using as less space as possible.

Designer:

All products are designed by: [J.P.Meulendijks design studio](http://www.meulendijksdesignstudio.nl).

[WWW.N-U.NL](http://www.n-u.nl)

J.P. Meulendijks (1972) independent designer. Designer of furniture ,lighting, and other interior products for various international clients. Designs are made from concept till production-ready technical drawings, and in some cases: end-products. His work is often published and exhibited. Some designs are awarded, others part of a museum-collection. Besides designing for international clients, J.P. also designs, develops, produces, and distributes his own design label "nu-collection".

In 2010 the focus is put on environment ,ecological design and sustainability. After a long research: a new biodegradable material was developed: "ECOLOTEK ". Together with new designs and a new mission: this resulted in a new label : PLANKTON"

"I like to describe my work as: fresh, soulful, minimal, with a slice of humor, designed by my own way of thinking, brought back to the essence of the idea. I like to use iconic and archetype images, forms and objects, which everybody will recognize, which I will interpret and use in a different way. I try to put a little poetry and soul into a object. The idea usually defines the design of the product."

Clients include: PLANKTON / NEXT home collection/ Van Esch / DARK / Karlsson-clocks / PT-home / IKIbeer / Nextime / Jansen+co / Duo-design / LS-works / Melaja /Innermost / Kikkerland / Umbra / WK-Wu / Interior-tools / Mobach / B&W-clocks./ Leitmotiv
